# DEAR TEAM LEADERS

2023 | WWW.CANOEMARATHON.DK

The Danish Canoe Federation, Sport Event Denmark, SportsCenter Denmark, the Triangle Events, and the Vejen Municipality have the great honor of welcoming you to a safe and fair competition in Denmark.

The World Championships will take place in a unique and traditional setting at Lake Jels in the municipality of Vejen, Denmark. We are excited to offer participants and spectators a special experience in one of Denmark's central Viking areas where, to this day, many of the proud Viking traditions are passionately displayed. With an innovative approach to old traditions, we create a focus on health, Nordic food, and sustainability. The city of Vejen has planned a lavish amount of side activities. Make sure to tell your followers to take part in these activities.

We are working hard to host an environmentally conscious event. Please help us to achieve this goal: Don't litter, sort your garbage, and use the recycling bins.

You will find the remaining information for the event in this document. The Championships are organized with the help of more than 250 volunteers. Make sure to give them a high five on your way to your kayaks and canoes.

Embrace the city of Jels and Vejen, immersed in the championship's atmosphere – a whole municipality welcoming athletes, visitors, and fans!

See you soon!

On behalf of the organizing committee,

Mayor of Vejen Municipality  
Frank Schmidt-Hansen

## Medal Ceremony

The presentation will be done in front of the Grand Stand, behind the portage. All competitors who receive medals must be present 15 minutes before the scheduled time at the medal ceremony tent. **The procedure will be as follows:**

All competitors who are to receive medals should assemble at the medal ceremony tent (next to the tower). The medal winners will be led to the podium. Behind them will be three volunteers with the medals on cushions, then the team leader of the winning national country, and finally the head of the delegation. The event will be announced, the athletes and officials will march on to the prize giving area. The medals will be presented by the authorities and will be accompanied by the head of the delegation of the gold medal winners.

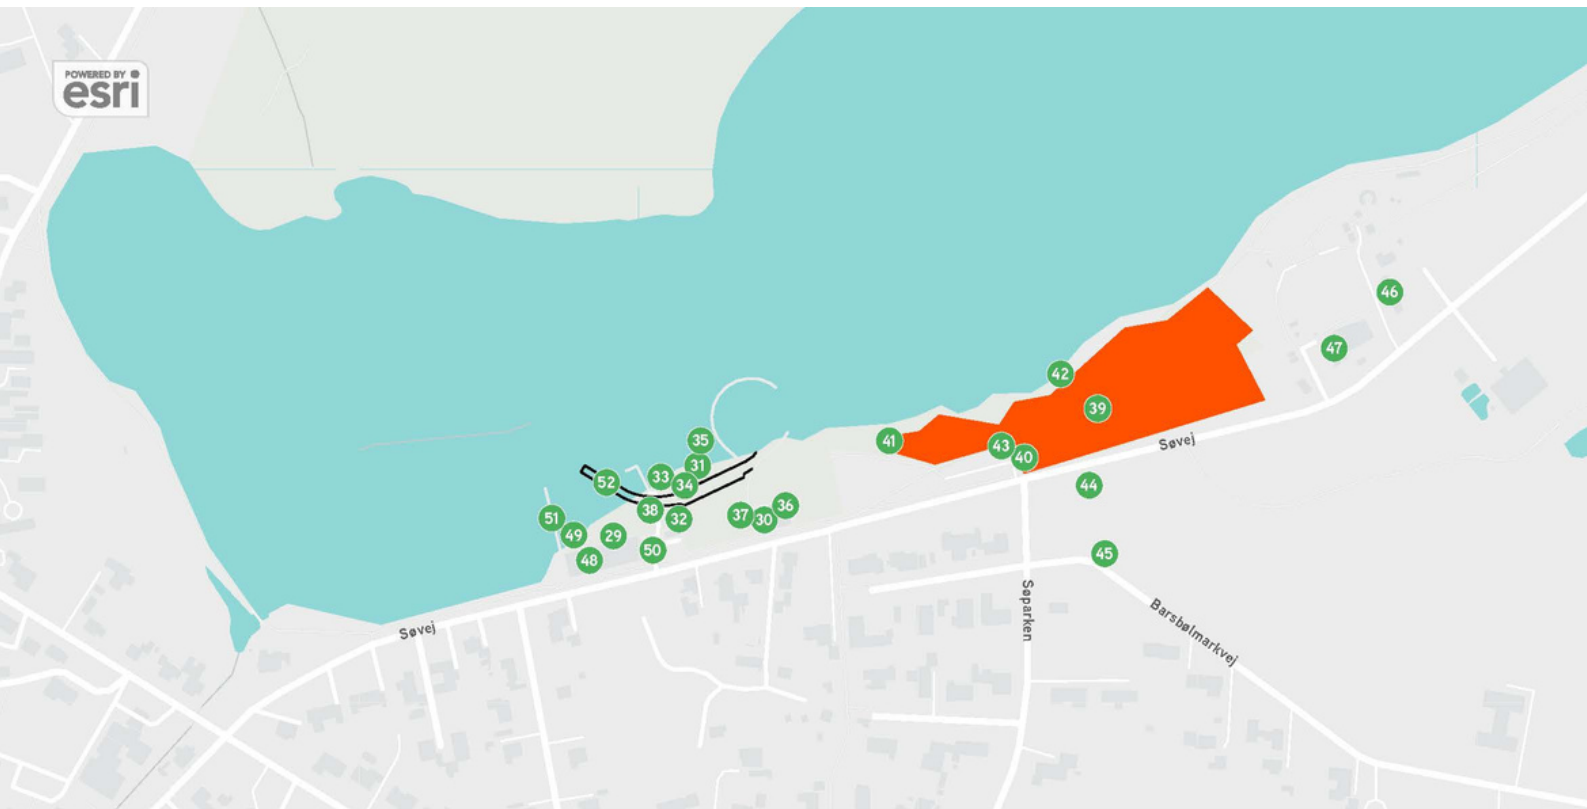

**PLEASE ENSURE THAT ALL PADDLERS RECEIVING MEDALS ARE WEARING FULL NATIONAL TRACK SUITS, NO HATS AND NO SUNGLASSES.**

The medal presentation ceremony will take place in a restricted area. Only the medal-winning athletes and the presenting official will have access to the area.

## Closing Ceremony Sunday, September 3

At the venue, right after the last podium ceremonies of the event.

# RACE COURSE

## SHORT DISTANCE FIRST LAP

# SHORT DISTANCE 2ND LAP

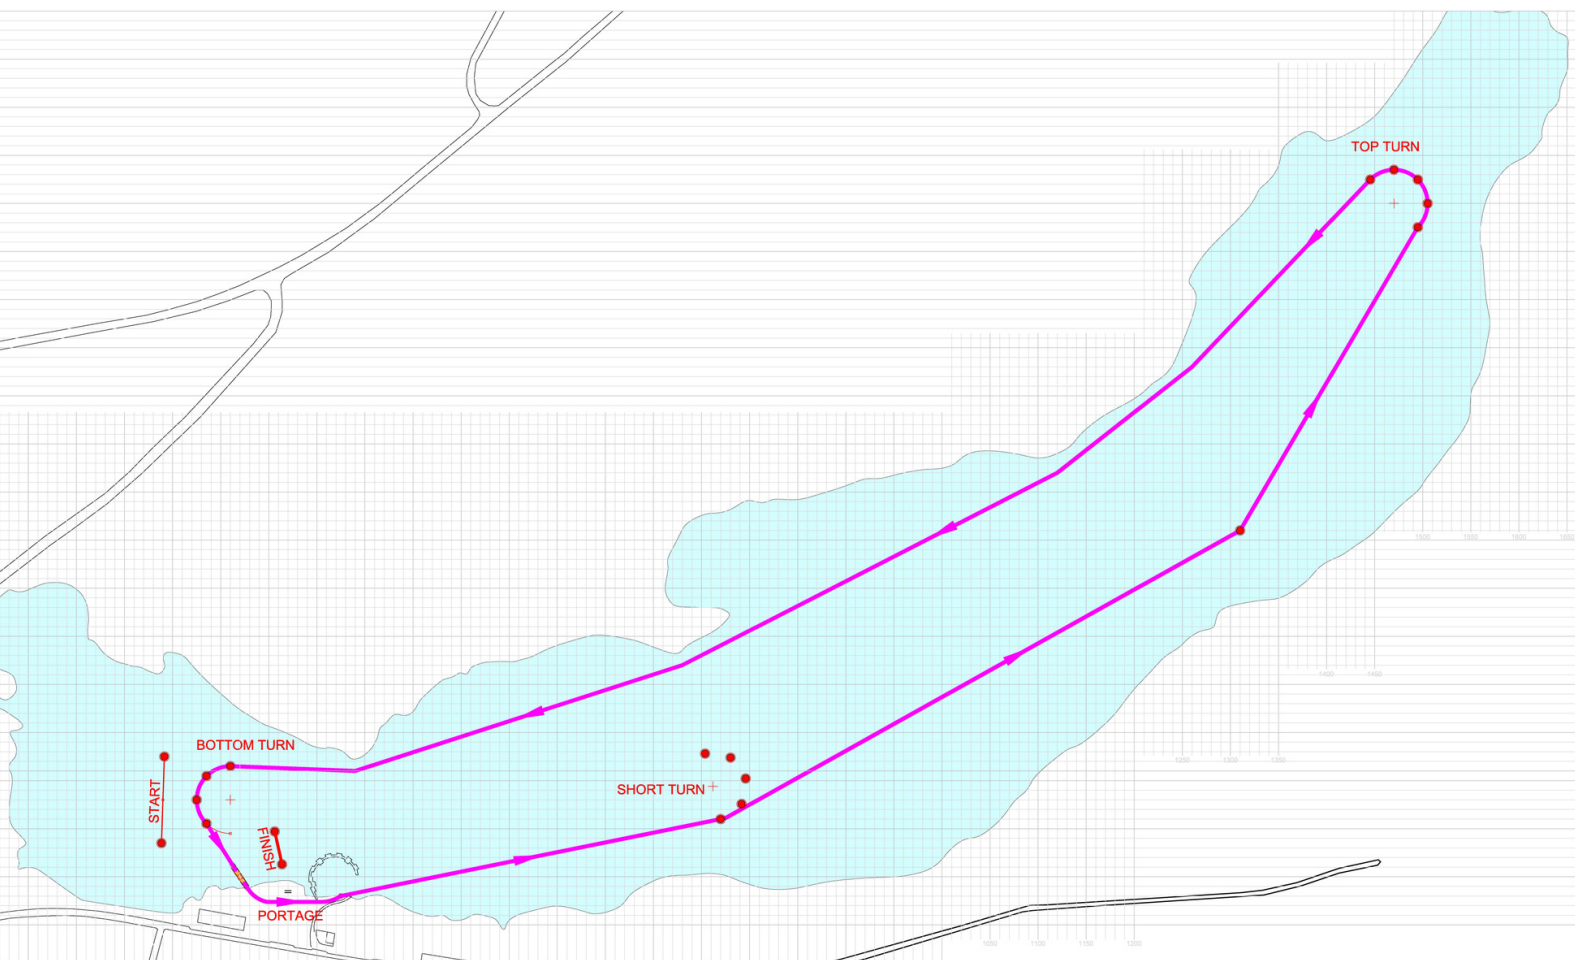

# SHORT DISTANCE LAST LAP

# FIRST AND SECOND LAP LONG COURSE, FIRST PORTAGE AT END OF SECOND LAP (AFTER 6,6 KM)

# THE FOLLOWING LAPS FOR THE LONG DISTANCE AFTER THE SECOND LAP

# LONG DISTANCE LAST SMALL LAP

# Course Details

Maps of the course will also be found on the Notice Board in the Athlete area and on the website. Disembarkation and Embarkation is on a pontoon at the competitors area, approximately 200 meters from the start line.

The running distance of the portage is about 100 meters, feeding area is appr. 40 meters. You disembark on a pontoon (covered with carpet) and enter onto the running lane on grass. Embarkation is on a small sandy beach.

NO PORTAGE AFTER THE FIRST LAP IN LONG DISTANCE (first portage is after appr. 6,6 km)

## **Portage – Special Access**

Each country is allowed one helper per boat, up to a maximum of two helpers in the feeding lane at any time. Only a maximum of ONE helper per boat, as previously indicated will be allowed to feed paddlers and these must be in possession of an accreditation card. Helpers are only allowed to support in races where their paddlers compete.

Nation vests will be given to each helper. If two boats are in the race only 1 helper is allowed to give support.

None of the helpers are allowed to enter the non-feeding area. There will be a corridor for helpers who have to go to the helper's area, no other crosses at other places are allowed. With competitors running at high speed, with canoes on their shoulders, with restricted vision it is important for safety that the marshal's instructions are obeyed.

Due to the high number of paddlers, the marshals who are in control of the portage area, will be strict and will only allow you into the feeding area if you are supporting your paddler.

Marshals will be instructed to ask other team officials to stay behind the barriers. Helpers should not stop suddenly after helping their paddler as there may be another boat coming behind them and the paddler of this second boat may not see you. Go to the center or to the end of the feeding lane and return to the beginning by the helpers lane provided.

## **Liquid bags**

It is strictly prohibited to throw away liquid bags and other trash in the lake. Make sure to get rid of your trash in the liquid zone in the portage. If this rule is not being followed, you will be given a 30 second penalty.

# SUSTAINABILITY

For more information on the sustainability initiatives visit the [www.canoemarathon.dk](http://www.canoemarathon.dk)

## "Pant"

Remember that aluminum cans and bottles made of glass or plastic, with the "pant" logo are directly recyclable.

Denmark has one of the highest return percentages, with 92% of all products with the pant logo coming back to the pant system.

By disposing your Pant in the bin with the Pant logo, we donate the money from pant to the NGO Green Kayak, to ensure clean water for future generations.

## Recycling

There will be recycling bins around the venue for your waste. Follow the signs to make sure your trash is being reused and recycled in the best possible way.

We recycle in 4 fractions around the venue and 10 in the administration area.

Follow the signs on the bins.

## Tapwater

The Danish tap water is 100% safe to drink.  
It's possible to fill up water bottles at the venue.

Remember your water bottle! And help us reduce the use of disposable plastic bottles

**2023 ICF CANOE MARATHON**  
 WORLD CHAMPIONSHIPS - VEJEN, DENMARK  
 AUGUST 28 - SEPTEMBER 3, 2023

[www.canoemarathon.dk](http://www.canoemarathon.dk)

# Start Procedures

All classes start positions have been completed by random draw and you will find the draw positions on the website upon arrival. The draw positions are numbered from the left facing in the direction of the course. Boats will line up in a numerical order.

Launching on to the water will only be from the indicated rafts and this will be a controlled area, the officials will check each person's boat on to the water. The boat must be in an undamaged state.

Warm up area for all races in that session is behind the startsystem.

**ALL BOATS RACING HAVE TO BE ON THE WATER WELL BEFORE THEIR START TIME; THE STARTER WILL NOT WAIT FOR LATE PADDLERS.**

The starter will call the paddlers to the start line. Please ensure that paddlers approach their starting point as quickly as possible in order for the start to commence on time.

The starter commands will be clearly heard by all the competitors through loudspeakers placed along the automatic starting system.

All starter commands will be in English and the start command will be "READY - GO"

# Finish

The timing and race results will be dealt with at the finish tower and access to this area will only be available to the Competition Committee and main event officials. Video finish equipment is installed and will be used where applicable. **The finish line is only between two white buoys with red flags.**

After the finish, the first four boats have to be weighed. This is on the inside of the portage next to the finish tower. **Thereafter, the first three have to go to the ceremony pontoon for interviews.**

The remaining competitors have to disembark at the same place where they entered before their race (see map). For others, the disembarkation must be at the same point they entered the water, It is important that all other paddlers who have finished do not obstruct those who have yet to portage or finish.

During team leader meetings, we clarify how paddlers should paddle back to where they entered.

## **Finish Area**

Paddlers should clear the finish area as soon as possible and must not, under any circumstances, cross the finish line twice. A marshal will indicate when it is safe to pass across the course in front of the timing to not interfere with boats who are still on the course.

# Boat Numbers

During the race, you must wear a number on your boat. The numbers will be given to you by the Chief Raftmarshall in the raftmarshall place. Each number must also be returned to the Raftmarshal. Each lost number cost 10 euro each

# Safety

We have safety boats on the water and an emergency team situated by the portage. The Organizing Committee is not responsible for covering your expenses for hospital treatment, dental treatment, or any other medical treatment are needed.

# ATHLETES AREA - ACCESS ONLY WITH ACCREDITATION

## Boat Storage

Boats storage will be available at the Event venue on racking and there will be 24-hour surveillance to ensure security.

## Team Tents

Each team will be assigned a team tent section however, small teams might share a tent.

## Training

Training on the lake ONLY according to the special training time in the time table.

# DOPING CONTROL

This will be in accordance with ICF regulations, and any clarification of the procedure will be given at the team leaders meeting.

A random selection of at least one paddler from each of the first four places will be required to attend doping control and will be accompanied by a team official and an event organising official.

**Competitors must bring their passport with them. Please therefore ensure that all paddlers have their passports at the finish area to ensure that there is no delay.**

The control will take place in an area set aside for this by accredited officials in the Town Hall. Notice will be given to the team manager if a competitor is required to attend doping control.

## ADEL Certification

International Canoe Federation congress has endorsed a proposal to extend compulsory anti-doping education courses to all masters, senior, U23 and junior international athletes and team staff across all canoeing disciplines.

It is important federations and teams understand that these education courses are compulsory for all international athletes and need to be completed before they compete in an international competition. This course gives athletes information about the dangers of doping and the importance of anti-doping controls and promotes positive attitudes to avoiding doping.

For the ones who did the course earlier, it will not be necessary to do the education again. **All paddlers who compete in these Championships need an ALPHA certification:** “International-Level Athletes Education on Program (English)”: <https://adel.wada-ama.org/learn>. However, your national Anti-Doping education is also accepted.
